

Ref. ABR-104

## Aluminium oxide hook-and-loop paper disc

Fast-cutting, long-lasting disc, from P80 to P400.

Aluminium oxide paper abrasive disc with a reinforced edge and hook-and-loop backing. It gives an aggressive cut and long life for production sanding. For use on paint, primer, metal, plastic, wood and composites, including fibreglass.

### Technical specifications

|                  |                                                                      |
|------------------|----------------------------------------------------------------------|
| Diameters        | 5 in, 6 in                                                           |
| Grits            | P80, P120, P180, P240, P320, P400                                    |
| Abrasive mineral | Aluminium oxide                                                      |
| Attachment       | Hook-and-loop                                                        |
| Surfaces         | Paint, primer, wood, metal, plastic, composites including fibreglass |

### How to use

- Preparing bare metal before painting
- Orbital and random orbital sanding of primers and fillers
- Blending and preparing OEM finish repairs

### Packaging and delivery

| Size               | Reference  | Pack quantity     |
|--------------------|------------|-------------------|
| 5 in – P80 to P400 | ABR-104-01 | 100 discs per box |
| 6 in – P80 to P400 | ABR-104-02 | 100 discs per box |
