Ref. HE-D102

3,800 A steel spotter with stepless adjustment

3,800 A single-knob spotter: mode and power set steplessly, quick switch to the graphite electrode.

Multi-purpose spotter for dent repair and straightening on steel bonnets, doors and roofs. A single knob selects both the working mode and the power, which is steplessly adjustable. The machine welds steel stars, washers, wiggle wires and studs, carries out contact shrinking on small dents and takes the graphite electrode. The weld fires from the gun trigger.

Technical specifications

Supply voltage	220 V or 380 V – 50/60 Hz
Continuous power	3 kW
Max. welding current	3,800 A
Panel thickness	0.4 to 1.2 mm
Power adjustment	Stepless
Open-circuit voltage	6.2 V
Firing mode	Manual / automatic
Machine package weight	26.5 kg
Programmes	Star, washer, OT ring, wiggle wire, stud, heat shrinking, single-sided spot welding
Panels worked	Steel
Format	Portable, trolley optional

Key features

- Max. welding current 3,800 A
- Steplessly adjustable power
- Single knob for mode and power
- Quick switch to graphite electrode mode
- 7 programmes, including single-sided spot welding and heat shrinking
- Oxygen-free pure copper cable

How to use

- Dent repair on bonnets, doors and roofs
- Star and washer welding for pulling
- Wiggle wire welding on curved profiles (wheel arch)
- Contact shrinking on small dents
- Graphite electrode work
- Steel stud welding

Packaging and delivery

Version	Reference
Single model	HE-D102

Package dimensions : Machine: 46 × 30 × 31 cm; trolley: 58 × 39 × 18 cm; machine + trolley: 53 × 41 × 59 cm · Package weight : Machine: 26.5 kg; trolley: 13 kg; machine + trolley: 39.5 kg

What's in the box

- Copper-plated pulling stars ×10
- Pulling washers ×20
- Slide hammer for gun ×1
- Hook slide hammer ×1
- OT pulling rings ×10
- Carbon electrode holder ×1
- Spanner ×1
- Suction cup ×1
- Wiggle wires ×10
- Washer / OT ring tip ×1
- Dual-purpose spot welding tip ×1
- Carbon electrodes ×2
- 6-hook pulling claw ×1
- Accessory case ×1
