Trolley-mounted steel dent repair station with LCD and 2 guns

Steel station with LCD screen: 10 preset tool modes, 80 power levels and 99 time levels.

Steel dent repair station on a tool trolley, with a text and graphic LCD screen that adapts the parameters to the selected tool. Ten tool modes are preset; for each one, time is adjustable over 99 levels and power over 80 levels. Two multi-function guns work in automatic mode (the weld fires on contact with the panel) or manual mode (contact, then trigger). Supplied with full pulling, finishing and glue pulling equipment.
