Mini dent repair spotter in carry case

Compact 2,000 W spotter with no earth cable, supplied in a carry case with all the pulling tools.

Compact spotter for dent repair on thin steel panels, easy to handle from the top of the body down to the sills. It works without an earth cable: the circuit closes directly through the panel. Welding current and time are adjusted to suit the part, and thermal protection keeps the unit safe. Supplied in a carry case with slide hammer, wiggle wire, nails, washers and tips.

Technical specifications

Supply voltage	220 V
Max. power	2,000 W
Output current	500 to 800 A
Peak current	1,500 A
Output voltage	4.5 V
Panel thickness	0.2 to 1.0 mm
Protection	Thermal
Panels worked	Steel
Format	In carry case

Key features

- Compact and easy to handle, from roofline to sill
- No earth cable: the circuit closes through the panel
- A 1.5 mm² power cable is enough on 220 V
- Adjustable welding current and time
- Overheating protection
- Complete kit: nails, washers, wiggle wire, tips, claw
- Low energy consumption

How to use

- Dent repair on steel panels from 0.2 to 1.0 mm
- Slide hammer pulling with nails, washers or wiggle wire

Packaging and delivery

Version	Reference
Pistol-grip gun	HE-D123-A
Closed-grip gun with switch	HE-D123-B

Package dimensions : 45 × 13.5 × 35 cm · Package weight : 12 kg

What's in the box

- Multi-purpose slide hammer ×1
- Wiggle wire connector ×1
- Washer connector ×1
- Nail welding tip ×1
- Nail holder connectors ×2
- OT rings ×50
- Wiggle wire ×10
- Weld-on nails ×1,000
- 6-hook pulling claw ×1
- Earth electrode ×1
- Hook ×1
- Round washers ×30
- Carry case ×1
