Portable induction heater – pistol-grip type

Pistol-grip induction heater: natural handling, 700–900 °C with no flame.

Pistol-grip magnetic induction heater, for quickly heating and freeing seized nuts, bolts and studs without a torch. The pistol grip gives natural handling so you can bring the coil right up to the part. It offers the same performance as the wand type: part heated to 700–900 °C, interchangeable coils, cooling fan and unit thermal protection.

Technical specifications

Supply voltage	230 V – 50/60 Hz
Output power	1,000 W / 1,100 W / 1,300 W / 1,500 W depending on version
Current draw	5 A
Temperature of heated part	700 to 900 °C
Unit thermal protection threshold	70 °C
Weight	3.15 kg
Format	Portable, in a carry case

Key features

- Pistol grip for precise coil positioning
- Flameless heating, with no risk to nearby wiring looms, trim and paint
- Part heated to 700–900 °C
- Interchangeable coils
- Unit thermal protection at 70 °C and cooling fan
- 3.15 kg, supplied in a carry case

How to use

- Freeing seized or rusted nuts, bolts and studs
- Flameless local heating of metal parts
- Heating hard-to-reach parts with the flexible coil

Packaging and delivery

Version	Reference	
Pistol-grip type	HE-H602	230 V; power from 1,000 to 1,500 W depending on version

Package dimensions : 44 × 12.3 × 32 cm · Package weight : 3.15 kg

What's in the box

- Induction heater ×1

- Ø 15 mm heating coil ×1
- Ø 20 mm heating coil ×1
- Ø 30 mm heating coil ×1
- 1,000 mm flexible heating coil ×1
- Black plastic case ×1
