Ref. HE-P302

1,600 W sanding extractor – 30 L tank

Compact 30 L sanding extractor for pneumatic and electric sanders.

Compact sanding extractor with a 30 L tank, on castors with a push handle. It supplies air to pneumatic sanders and also works with electric sanders. The copper-wound motor, cooled by dual airflow, runs through long sessions without overheating, and the turbine keeps noise down. 5-layer filtration returns clean air to the workshop; the tank opens easily for emptying and the suction power can be adjusted to suit the job.

Technical specifications

Supply voltage	220 V
Frequency	50/60 Hz
Rated power	1,600 W
Required air flow	≥ 300 L/min
Air pressure	8 bar
Tank capacity	30 L
Format	On castors

Key features

- Dust capture above 95 %
- Copper-wound motor cooled by dual airflow
- Low-noise turbine
- 5-layer filtration, clean exhaust air
- Easy-open tank for emptying
- Adjustable suction power
- Pneumatic or electric sanders (optional kits)

How to use

- Dust-free sanding of filler and primer
- Substrate preparation before painting
- Sanding with extraction hand blocks and orbital sanders

Packaging and delivery

Version	Reference	
Standard version	HE-P302-A	Push handle; package 63 × 47 × 65 cm, 32.5 kg
Version with tool column	HE-P302-B	Column with sander holder, disc holder and shelf; package 63 × 47 × 65 cm, 32.5 kg

Package dimensions : 63 × 47 × 65 cm · Package weight : 32.5 kg
