2,000 W sanding extractor – 50 L tank

2,000 W, 50 L sanding extractor topped with a sander and abrasive holder.

2,000 W sanding extractor with a 50 L tank, available in two configurations, each topped with a holder for sanders and abrasive discs. It supplies air to pneumatic sanders and also works with electric sanders. The copper-wound motor, cooled by dual airflow, runs through long sessions without overheating, and the turbine keeps noise down. 5-layer filtration returns clean air to the workshop; the tank opens easily for emptying and the suction power can be adjusted to suit the job.

Technical specifications

Supply voltage	220 V
Frequency	50/60 Hz
Rated power	2,000 W
Required air flow	≥ 300 L/min
Air pressure	8 bar
Tank capacity	50 L
Format	On castors

Key features

- Dust capture above 95 %
- Copper-wound motor cooled by dual airflow
- Low-noise turbine
- 5-layer filtration, clean exhaust air
- Easy-open tank for emptying
- Adjustable suction power
- Pneumatic or electric sanders (optional kits)

How to use

- Dust-free sanding of filler and primer
- Substrate preparation before painting
- Sanding with extraction hand blocks and orbital sanders

Packaging and delivery

Version	Reference
Tool column version	HE-P303-A Column with disc holder and shelf; package 56 × 43 × 56 cm, 17 kg
Sander gantry version	HE-P303-B Gantry with sander holders and disc holder; package 56 × 43 × 56 cm, 17 kg

Package dimensions : 56 × 43 × 56 cm · Package weight : 17 kg
