Ref. HE-P305

2,000 W dust-free sanding workbench

Complete sanding station on castors: 50 L extraction, tool panel, worktop and shelves.

Mobile sanding workbench bringing extraction, abrasive storage and tools together in a single station. The copper-wound extraction motor, cooled by dual airflow, runs for long periods without overheating, and the turbine keeps noise down. 5-layer filtration captures over 95 % of dust and returns clean air to the workshop. Suction power can be adjusted to suit the job and the wide-opening collector is easy to empty. It can be fitted out for pneumatic or electric sanding with the tool kits on offer.

Technical specifications

Supply voltage	220 V
Frequency	50/60 Hz
Rated power	2,000 W
Required air flow	≥ 300 L/min
Air pressure	8 bar
Tank capacity	50 L
Dust capture rate	> 95 %
Filtration	5 layers
Format	Workbench on castors
Controls	2 channels: power adjustment, auto / manual selector and electric tool socket on each channel; central digital display
Extraction connections	2 extraction outlets on the front

Key features

- Dust capture above 95 %
- 5-layer filtration, clean exhaust air
- Copper-wound motor cooled by dual airflow
- Adjustable suction power
- Wide-opening collector, easy to empty
- Built-in perforated tool panel, worktop and storage shelves

How to use

- Sanding of filler and primer
- Substrate preparation before painting
- Sanding for blend-ins and fade-outs

Packaging and delivery

Version	Reference
Single model	HE-P305

Package dimensions : 96 × 46 × 74 cm · Package weight : 66 kg
